Low Fat

# Low Fat

Imagined by renowned Australian designer Chris Connell, Low Fat is a sofa range that embodies both comfort and style. A bold, contemporary design with an accentuation of depth, Low Fat provides a sumptuous lounging experience.

— Designed by Chris Connell, Melbourne, 2019

## Materials and characteristics

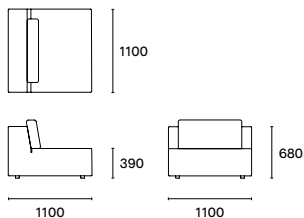

Low Fat is comprised of a lightweight timber and plywood frame with webbing in the seat to allow for softer cushioning. The fixed back and seat cushions are made up of HR 36/130 enduro-grade foam topped with a selection of fibre and feather fibre overlays, for a sofa that is a true expression of comfort.

Available fully upholstered in stretch fabric, non-stretch fabric or leather in a variety of colours.

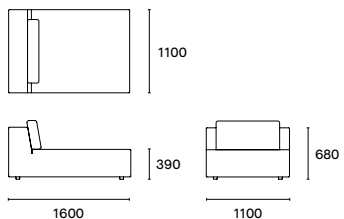

## Shape options

With a sleek, modular design available in stand-alone, linear or corner configurations, Low Fat effortlessly lends itself to either restrained minimalism or rich decadence. Available in a selection of premium fabrics and leathers, the sofa holds strength in its ability to take on myriad personalities dependent on its materiality.
